- Apart from the lamp, it is not recommended to replace any part of the fitting.
- Replace Lamp with same type, voltage and maximum wattage as specified

Minimum distance recommended between fitting and lighted objects is 0.5 metres

Code	Lamp	Rating	Fitting Diameter (Ø)	Cutout Size (Ø)	Min. Depth Ceiling Void	IP Rating
COM65SH	GU10	240V Max. 50w	84mm	72mm	100mm	IP65

INSTALLATION INSTRUCTIONS

- Ensure electricity is switched off at the mains before installation, or changing lamp
- Cut a hole in the ceiling (refer to table above for cutout size and void). Ensure adequate ceiling height
- Connect two clips on each side, with one side using bracket and enclosed terminal block.
- Connect 12v or 240V supply to the terminal block, ensuring no wiring or any other material can touch lamp when fitted
- Insert both longest arms into the hole
- Push fitting firmly up flush with the ceiling
- Pull down the front bezel
- Pull ceramic lampholder through fitting and fit lamp
- Place back the front bezel or front glass diffuser
